The Boreal Shores Art Tour is a free, self-guided driving tour featuring individual artist studios and group artist locations throughout Eastern Manitoba. Divided into three colour-defined regions, the studios and group locations are indicated by coloured dots with stop numbers in them. Group locations are further defined by letters designating each artist at the stop.

*The Tour is an adventure and, like any good adventure, presents a mixture of surprises and challenges. The locations are a combination of old and new, public and private spaces. Some are easy to get into , others have lots of stairs  (7). Some have washrooms available , others do not. (Wheelchair accessibility is varied, so please call ahead for information.)*

We have tried our best to guide you from place to place with detailed maps and written instructions, as well as road and location signs, but if you have any questions, or find yourself lost, please contact us:

Striking 3D multi-media scenes of people, families and nature displayed in shadow boxes evoke emotions and make people smile!

### Cottonwood Bark Carving

Carving cottonwood bark into whimsical houses, castles, light houses, trees, Christmas tree ornaments, etc. in all shapes and sizes has only two limitations - the size and shape of the bark piece, and my imagination. Each new piece of bark is an exciting carving challenge. The end result is often a surprise!

## Jan Claude

### Watercolour

Beautiful watercolours touched to damp, rugged paper seem to have a vigorous life of their own. Guiding them is the most satisfying creative experience that I have ever known. I use a variety of techniques in my work - from loose washes to detailed crispness - trying to evoke a feeling or capture a moment.

## Paul Lussier

Clay (Ceramic Sculpting)

Paul has always been fascinated with human form and in particular the stories told by the figures of older people: "I see on their faces and on their bodies the multitude of hardships that they have endured. Their tragedy, their triumph, their strength and their hope comes to me..... and I try to capture this in clay. Their look of struggle and despair is outshone by a glimmer of hope and pride in what they have accomplished."

## Ada Vandersteen

Oils

I have always loved the tranquility and beauty of nature and have allowed it's many varieties of textures, colours and hues to inspire me in my paintings. I am a realistic painter and paint mostly from my photos. Winter and scenes of snow also bring me a certain peace and artistic urge to apply it to canvas. My paintings have a dark to light quality and I love graphic detail.
